

FLOATING CASTLE FILMS

WEDDING VIDEOGRAPHY

PACKAGES & BOOKING GUIDE

Cinematic films, captured naturally.

FLOATINGCASTLEFILMS.COM

HOW WE FILM

Films that feel like your day

We film weddings in a cinematic but natural documentary style. No staged moments, no endless directions, no camera in your face. We stand back, let the day unfold, and capture it as it really happened — because those are the moments you'll want to watch back in twenty years.

We've been filming weddings for over a decade. Floating Castle Films is a small, close-knit studio of videographers, photographers and editors — so the people you speak to while planning are the same team standing quietly at the back of your ceremony, working alongside your photographer and venue without getting in anyone's way.

EVERY FILM WE DELIVER

- Shot in 4K on professional cinema equipment.
- Edited with multiple camera angles, clear sound and full colour grading.
- Built from real moments — we document your day, we don't direct it.
- Backed by over a decade of weddings, and fully insured.

“

He captured everything beautifully but didn't feel invasive or like the camera was in our face at all. In fact, at times we wondered where he'd gone — but when we watched our videos back, he'd shot everything beautifully.

SIOBHAN & JO

CHOOSING YOUR PACKAGE

Three packages. One simple decision.

Every package includes the films couples actually ask us for: a cinematic highlight film, your full ceremony, your full speeches, a social media edit and drone footage. Nothing essential is held back for a higher tier.

The only real decision is how your day is covered.

FULL DAY

Our most popular package

One videographer. The whole day — ceremony, speeches and highlights — captured properly.

ADVANCED

For a fuller record of the day

Two videographers. More angles, more guest reactions, more of the day on film.

PHOTO & VIDEO

One team for everything

Photography and videography together, planned and delivered by one coordinated team.

All three cover up to 10 hours — bridal prep until half an hour after the first dance.

On the next pages you'll find what each package includes and who it suits best, so you can choose with confidence. And if your plans don't quite fit any of them, tell us about your day — we're happy to shape a package around it.

THE FULL DAY PACKAGE

The whole day, captured properly

Our most popular package

One experienced videographer covers your wedding from preparations through to the first dance and the start of the party, filming on up to two 4K cameras for key moments such as the ceremony and speeches.

This is the package most of our couples book — and it's complete on its own. Every important part of the day is filmed, edited and delivered. There's nothing missing to upgrade your way out of.

INCLUDES

- 1 videographer
- Up to 10 hours of coverage — bridal prep until around half an hour after the first dance, so the party getting going is on film
- Up to two 4K cameras for key moments such as the ceremony and speeches
- Cinematic highlight film — preparations, ceremony, speeches, reception, first dance and celebrations
- Social media highlight video
- Your full ceremony, professionally edited with multiple angles, clear sound and colour grading
- Your full speeches, edited the same way
- Cinematic drone footage (weather and location permitting)

A GOOD FIT IF

- You want the key parts of the day filmed properly, start to finish
- Your day happens mostly in one or two locations
- You'd like a discreet presence — one videographer, working quietly

“

They were absolutely fantastic on the day and so professional... they sent our videos to us so quickly and we are SO pleased with them. We must have watched them all about 100 times now.

SOPHIE & ANDY

Prefer two videographers on the day? The Advanced Package adds exactly that — next page.

THE ADVANCED PACKAGE

Two videographers. Twice the perspective.

For a fuller record of the day

The Advanced Package includes everything in the Full Day Package — the same coverage and the same films — with a second videographer and up to four 4K cameras across the day.

WHAT A SECOND VIDEOGRAPHER ACTUALLY CHANGES

Two places at once

Both of you can have your morning preparations filmed without splitting one videographer's time. While one of us is with you for portraits, the other stays with your guests.

You — and the people watching you

During the ceremony and speeches, one camera stays on you while the second captures the reactions: parents, friends, the laughter and the tears you can't see from where you're standing. These are often couples' favourite moments in the finished film.

A richer final film

More angles and more natural moments to draw on in the edit means a fuller, more varied film — closer to how the day actually felt.

INCLUDES

- 2 videographers
- Up to 10 hours of coverage — bridal prep until around half an hour after the first dance, so the party getting going is on film
- Up to four 4K cameras for key moments such as the ceremony and speeches
- Cinematic highlight film and social media highlight video
- Your full ceremony and full speeches, professionally edited with multiple angles, clear sound and colour grading
- Cinematic drone footage (weather and location permitting)

A GOOD FIT IF

- You have a larger guest list, or a lot happening across the day
- Preparations, ceremony or reception are in different places
- You want guest reactions and candid moments woven through your film

“

We were incredibly impressed with the variety of footage and how both shooters managed to capture such beautiful moments — many that we missed ourselves on the day.

MARK & YUI

THE PHOTO & VIDEO PACKAGE

Photography and film, working as one

One team for everything

One coordinated team covers both your photography and your videography. We plan the coverage together, work around each other on the day, and make sure the photos and the film each get the time and space they need — without you having to manage two separate suppliers.

PHOTOGRAPHY

- 1 photographer, from bridal prep to 30mins after first dance
- Unlimited edited photos
- High-resolution, watermark-free images
- 10 preview images delivered within 3 days
- Professional colour grading and editing
- Secure online gallery for viewing, sharing and downloads

VIDEOGRAPHY

- 1 videographer, prep to 30mins after first dance
- Cinematic highlight film featuring moments from across the day
- Social media highlight video
- Your full ceremony and full speeches, professionally edited with multiple angles, clear sound and colour grading
- Cinematic drone footage (weather and location permitting)

WHY BOOK BOTH TOGETHER?

Your photographer and videographer arrive as one team, with one plan. Key moments are captured properly from both sides without anyone getting in each other's way — and you have one point of contact, one timeline and one booking for everything.

“

Joseph also worked really well with our photographer — and that's not always an easy dynamic.

EVERY PACKAGE, AS STANDARD

4K delivery · professional sound · full colour grading · fully insured · over a decade of weddings

A few optional extras — such as additional coverage hours or extended edits — are available on the booking form if you'd like them. Most couples find the packages complete as they are.

QUESTIONS & NEXT STEPS

Anything else you'd like to know?

Will you direct us on the day?

No. We document the day as it happens. We'll quietly find the right positions at the right moments, but we won't make you perform for the camera.

How long have you been filming weddings?

Over a decade. In that time we've built the practices and back-up routines that make sure every wedding is captured to the standard it deserves.

Are you insured?

Yes — fully insured.

Can we choose our own music?

For the highlight film, you choose a song from Artlist, a library of thousands of licensed tracks — or leave it to us and we'll pick something that suits the feel of your day.

What if our plans don't quite fit a package?

Every wedding is slightly different. Tell us your date, venue and rough timings, and we'll shape the package around your day.

How do we book?

Once you've chosen your package, we'll send over our online booking form. A booking fee secures your date — the rest isn't due until closer to the wedding.

NEXT STEPS

01

Check your date

Email or message us and we'll confirm availability.

02

Choose your package

Or tell us about your day and we'll recommend one.

03

Book

Complete the booking form and booking fee — your date is secured.
